

Richfield

Engineering & Construction

**“POWER OF SUN IN YOUR
HANDS”**

Providing Energy Reliability

Cost Effective Solutions For Your
Energy Needs

Industrial & Domestic
Applications

PROVIDING COMPLETE & COST EFFECTIVE ENERGY SOLUTIONS

ITS EASY TO GO GREEN

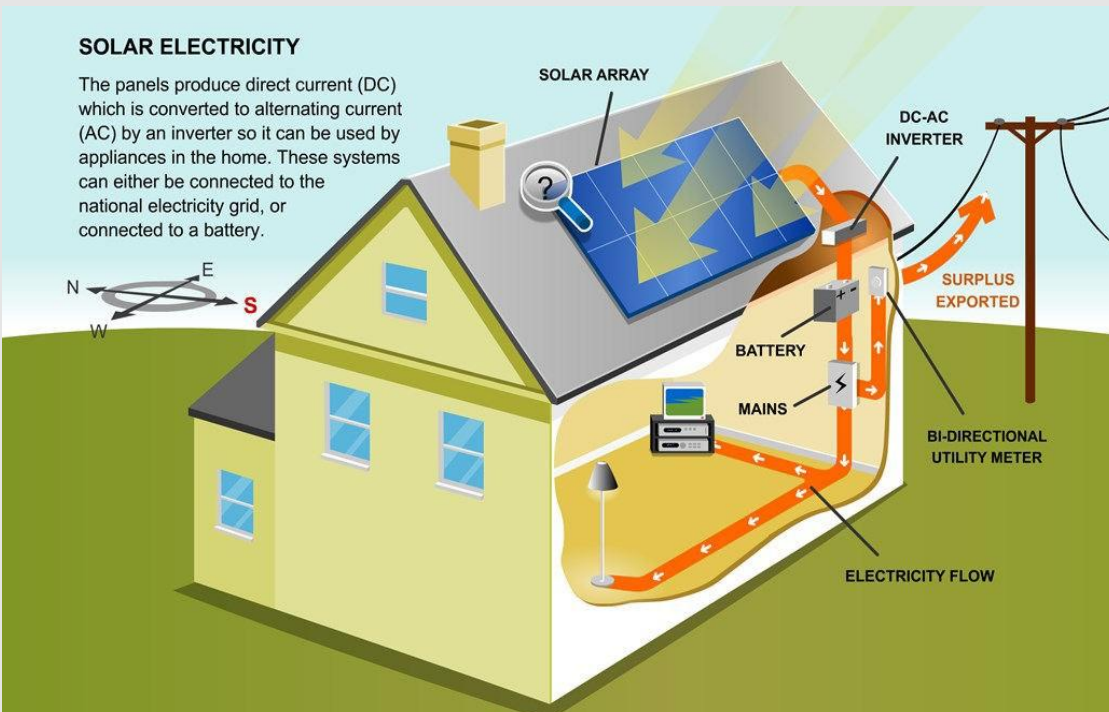

APPLICATIONS

- Complete Home Energy Requirements, Rendering Self Sufficiency & Economical Progression
- Power Necessities of All Industries, Agriculture, Manufacturing, Power Generation, Fuel Stations
- Street Lightings & Peripheral Lighting
- Power Plants, Powering Urban & Rural Establishments
- Mirrored Dishes Increasing Efficiency
- Green House, Battery, Portable Lights, Transportation, Desalination & Recharging Sheds for all Products.

SOLAR POWER SOLUTIONS

Fabrication, & Supply including Installation of Solar PV Module Mounting Structures, PV Modules and Inverters.

- Solar Mounting Structure
- Inclined Roof Top Solar Mounting Structure
- Flat Roof Top Solar Mounting Structure
- Roof Top Solar Installation
- Ground Mounted Solar Installation
- Supply and Installation of Solar Pumping both with AC & DC Drive Pumps

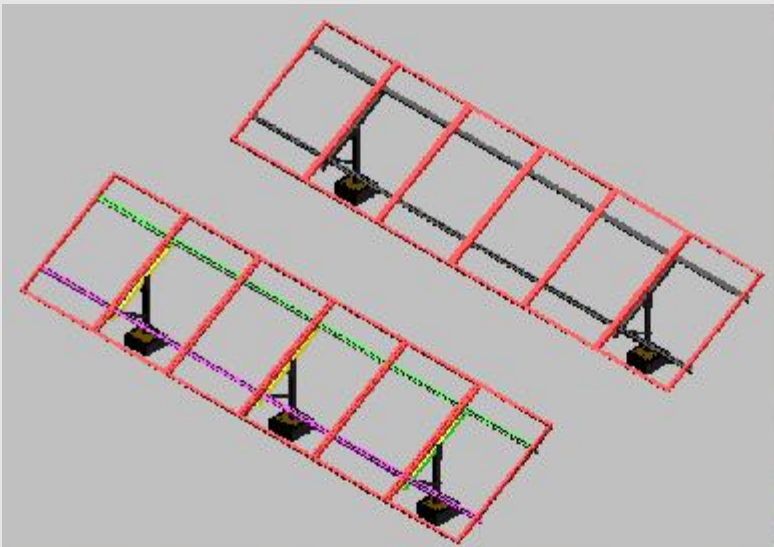

INNOVATIONS

Our Innovative and ready available technology guarantees longer life cycle of product, more effective energy production and easy of energy management.

After sales technology ready available to deploy to provide simple easy understandable cost effective maintenance of product.

Complete user friendly technology to enable easy of usage
